Our promise is that we will use the best materials and above code quality craftsmanship to restore your damaged property

Are you prepared for severe weather? Natural disasters are on the rise, putting your property at-risk. Homeowners should take the necessary precautions to minimize property damage before disaster strikes. Luckily, **Hawaii Restoration**Services has compiled a checklist to help ensure that you've got your bases covered. Remember, while you can't control the weather, you can prepare for it.

#### **Your Property**

#### **HOME INTERIOR**

Make sure doorways are sealed and don't have gaps, replace weather stripping if needed	Install sump pumps in low lying areas of your home
Inspect windows for cracks and chips	Locate your breaker box and label the switches clearly
Make sure the drainage system isn't clogged or backed up	Seal cracks in walls with waterproof paints or sprays for added protection
Elevate or move your furnace, water heater and electrical panels to higher ground if necessary	Lock important documents and irreplaceable valuables in a waterproof, fire resistant box
Consider installing water leak detectors that send alerts to smart phones near entryways and in low lying areas as well as areas of your home that are high risk, such as laundry rooms or around water heaters	Scan photos and documents and upload them to a secure cloud storage site
	THE PARTY

Our promise is that we will use the best materials and above code quality craftsmanship to restore your damaged property

## **Your Property**

HOME EXTERIOR	LANDSCAPE AND HARDSCAPE		
Evaluate roof for any weak spots	Clear dead branches from trees on		
Identify leaks	your property		
Address loose shingles and inspect materials for wear and tear	Scale back or relocate trees that could cause damage to your home during a storm		
<ul><li>Evaluate flashings, make sure there are no gaps</li></ul>	If you live near a creek or river, create a sandbag wall ahead of time for		
Look for spots with water damage on	added protection		
the ceiling and cracks in roof tile (indication of leaks)	Clear drains		
Check for mold (mold can be an early identifier of problems to come)			
Remember to clean the debris from gutters and consider installing gutter guards			
Inspect the foundation of your home for cracks and leaks, including around pipes			

Our promise is that we will use the best materials and above code quality craftsmanship to restore your damaged property

#### **Homeowners Insurance**

Contact your agent to determine your coverage needs.
Create an inventory list and keep it current, save receipts and take photos for documentation.
Update your policy as needed (recommended yearly)
Familiarize yourself with what is and isn't covered
Check to see if your property is located in a flood plain.
Consider purchasing Flood Insurance
Consider purchasing Earthquake insurance

Our promise is that we will use the best materials and above code quality craftsmanship to restore your damaged property

## **Home Disaster Plan and Kit**

#### **CREATE AN EMERGENCY PLAN**

Establish an emergency contact to check in with in the event of an emergency
Discuss a meeting spot (neighborhood or regional)

#### PREPARE A 3-DAY\* DISASTER KIT

	Include non-perishable food items such as canned food—remember the can opener—dried fruits, nuts, etc.	Warm clothing and a change of clothes		
			Sleeping bags and extra blankets	
	One gallon of water per person a day		Flashlights or headlamps (include extra batteries)	
	Plastic cups, plates and cutlery, trash bags		Whistle	
	First aid kit—bandages, dehydration salts, gauze, anti-histamines, aspirin (basic first aid supplies should be stocked)		Waterproof matches	
			Basic hygiene supplies (baby wipes, toothbrushes and toothpaste,	
	Prescription medications		feminine products)	

<sup>\*</sup>It is ideal to have at least 3 days worth of quantities in your disaster kit. Although some disasters may last longer then 3 days.

Our promise is that we will use the best materials and above code quality craftsmanship to restore your damaged property

# After the Storm—Filing a Claim if Your Property is Damaged

Contact your insurance agent as soon as possible
You can also report a claim.
Provide your policy number
Include the date, time and location
Give a description of the damage
Take an inventory of damaged property
Evaluate and document the damage in photos
Do not dispose of damaged items
Make temporary repairs to protect property from further damage
Keep itemized receipts for expenses such as temporary housing, repairs, meals, etc.
